Curriculum	APRIL	MAY	JUNE	JULY	AUG	SEPT	OCT	NOV	DEC	JAN	FEB	MAR
Annual Symposium												
April 27 & 28, 2011 Waterfront Hotel, Burlington, Ontario	X											
Integrative Course Sessions												
5-6 synchronous sessions that encompass "big problem(s)" (e.g. warfarin, cancer risk factors, etc...) + different people, different ideas, different perspectives/approaches and tend to incorporate concepts from across domains.		**X**	**X**	**X**	**X**							
Research Skill-Building Sessions												
2-3 synchronous sessions that will cover a basic research skill or set of related research skills (using drug focused examples where possible)				**X**			**X**			**X**		
Basic Concepts Course Sessions												
Each month there will be focused sessions in fundamental principles of drug safety and effectiveness research in each of the four domains of science: Biosciences; Clinical Therapeutics; Population Health, Epidemiology & Biostatistics and Health Services & Policy. Self-study modules can be accessed online during weeks 1-3, and a synchronous group Elluminate discussion will occur during week 4.						**X**	**X**	**X**	**X**			
DSECT Seminars												
Guest lecturers presenting their research to DSECT trainees.	**X**		**X**		**X**		**X**		**X**		**X**	
OSKTE												
Object Structured Knowledge Translation Experience – a formative experience in researcher-decision maker knowledge transfer including constructive feedback and unique insight from real-life decision makers and mentors											**X**	**X**
DSECT Book Club												
Quarterly online book club	**X**					**X**		**X**			**X**	
Research Project Presentation												
Face-to-face update on trainee project (in tandem with OSKTE activity)											**X**	**X**
